

Effective Date: March 25, 2025  
Validity period: 12 months

## Statement

1. To the best knowledge of CHIMEI CORPORATION ("CHIMEI") as of the date hereof, CHIMEI hereby represents that the substances listed in Appendix I are not intentionally added in the resins listed below which directly supplied by CHIMEI ("Products").
2. To the best knowledge of CHIMEI as of the date hereof, CHIMEI hereby represents that the Products comply with the following regulation:
  - a. Directives of RoHS 2011/65/EU and its amendment (EU) 2015/863.

|                       |                                                                                                                                                                                     |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| POLYLAC® ABS          | PA-763, PA-763A, PA-764, PA-764B, PA-764G, PA-763H, PA-763AH, PA-765 (J01), PA-765A (J01), PA-765B                                                                                  |
| Ecologue Bio Products | The Bio Products in Ecologue series with the names consisting of the above listed product names and "B%%", such as PA-763 B50.<br>The "%%" represents the bio contents of products. |

\*The above suffix "J01" denotes the black color grade.

Sincerely Yours,

---

Jones Kuo  
Vice President of Research and Development Head Division

## Appendix I

|                                                                                                                                   |                                                                                              |
|-----------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|
| 1. PBDEs (Polybrominated Diphenyl Ethers)                                                                                         | 34. Perchlorate                                                                              |
| 2. PBBs (Polybrominated Biphenyls)                                                                                                | 35. Hexachlorobenzene                                                                        |
| 3. Ozone Depleting Chemicals (CFCs & HCFCs)                                                                                       | 36. Mirex                                                                                    |
| 4. Chlorinated Paraffin (C10-C13)                                                                                                 | 37. Benzene                                                                                  |
| 5. Polyvinyl Chloride (PVC)                                                                                                       | 38. Benzenamine, N-phenyl-, Reaction Products with Styrene and 2,4,4-Trimethylpentene (BNST) |
| 6. Mercury (Hg) and its compounds                                                                                                 | 39. Polyamide                                                                                |
| 7. Lead (Pb) and its compounds                                                                                                    | 40. PVDC (polyvinylidene chloride)                                                           |
| 8. Cadmium (Cd) and its compounds                                                                                                 | 41. ESBO (Epoxidized soybean oil)                                                            |
| 9. Hexavalent Chromium (Cr(VI)) and its compounds                                                                                 | 42. Formamide                                                                                |
| 10. Arsenic (As) and its compounds                                                                                                | 43. Hexabromocyclododecane (HBCDD)                                                           |
| 11. Selenium (Se) and its compounds                                                                                               | 44. Red phosphorus                                                                           |
| 12. Barium (Ba) and its compounds                                                                                                 | 45. Aniline · formaldehyde polycondensate                                                    |
| 13. Beryllium (Be) and its compounds                                                                                              | 46. Fluorescent powder                                                                       |
| 14. Bismuth (Bi) and its compounds                                                                                                | 47. 4,4'-Sulfonyldiphenol (BPS)                                                              |
| 15. Organic tin compounds (TBT, TPT, DOT, DBT)                                                                                    | 48. Tris(2-chloro-1-methylethyl) phosphate (TCPP)                                            |
| 16. Polychlorinated Biphenyls (PCBs) and Terphenyls (PCTs) and Naphtalenes (PCNs)                                                 | 49. Tris(1,3-Dichloro-2-propyl) phosphate (TDCPP)                                            |
| 17. Polychlorinated naphthalenes                                                                                                  | 50. Tris(2,3-dibromopropyl) phosphate                                                        |
| 18. Azo colorants (according to REACH-ANNEXXVII-APPENDIX 8)                                                                       | 51. Tris(aziridinyl)phosphine oxide                                                          |
| 19. Asbestos                                                                                                                      | 52. Tri- <i>o</i> -cresyl phosphate                                                          |
| 20. Phthalates, Selected Group 1 (BBP, DBP, DEHP, DIBP) and Group 2 (DIDP, DINP, DNOP)                                            | 53. Tris(2-chloroethyl) phosphate (TCEP)                                                     |
| 21. APEO: Including Alkylphenol(AP), Octylphenol(OP), Nonylphenol(NP), Octylphenol ethoxylates(OPE), Nonylphenol ethoxylates(NPE) | 54. Perfluorohexane-1-sulphonic acid and its salts (PFHxS)                                   |
| 22. 2-(2'-Hydroxy-3',5'-di-tertbutylphenyl) Benzotriazole                                                                         | 55. Diisononyl phthalate (DINP)                                                              |
| 23. PFOA, PFOS, PFAS                                                                                                              | 56. Di-isodecyl phthalate (DIDP)                                                             |
| 24. Bisphenol A                                                                                                                   | 57. Di-n-octyl phthalate (DNOP)                                                              |
| 25. Formaldehyde                                                                                                                  | 58. Diethyl phthalate (DEP)                                                                  |
| 26. Dimethylfumarate (DMF)                                                                                                        | 59. Dimethyl phthalate (DMP)                                                                 |
| 27. Triclosan                                                                                                                     | 60. Cobalt                                                                                   |
| 28. Nickel                                                                                                                        | 61. Mica                                                                                     |
| 29. PAHs (Polycyclic Aromatic Hydrocarbons)                                                                                       | 62. Graphite                                                                                 |
| 30. Radioactive Substances                                                                                                        | 63. Bis(2-ethylhexyl) phthalate (DEHP)                                                       |
| 31. Natural Latex                                                                                                                 | 64. Butyl benzyl phthalate (BBP)                                                             |
| 32. Dioxins and furans                                                                                                            | 65. Dibutyl phthalate (DBP)                                                                  |
| 33. Primary aromatic amines (PAA)                                                                                                 | 66. Diisobutyl phthalate (DIBP)                                                              |
|                                                                                                                                   | 67. PIP (3:1) (phenol, isopropylated phosphate 3:1)                                          |
|                                                                                                                                   | 68. DecaBDE (decabromodiphenyl ether)                                                        |
|                                                                                                                                   | 69. 2,4,6-TTBP (2,4,6-Tris(tert-butyl)phenol)                                                |
|                                                                                                                                   | 70. HCBd (hexachlorobutadiene)                                                               |
|                                                                                                                                   | 71. PCTP (pentachlorothiophenol)                                                             |
